

# FIND YOUR TRIBE

If you don't know about our Kissing Tree Tribes yet, hold onto your hat. The Champs, Foodies, Voyagers and Creators are groups that bring us together and host activities and adventures.

## CHAMPS

From the golf course to the swimming pool, we're happiest when we're active. Champs celebrate health and wellbeing—with some friendly competition thrown in. From yoga and cycling to blackjack and dance-offs, the Champs are getting stronger and living longer.

## VOYAGERS

Voyagers live to explore, whether that's exploring new places or exploring new ideas. We long to be out—out of the house, out of the city, maybe even out of the country. And we're always looking for new ways to expand our horizons and learn new things.

## FOODIES

Whether we're baking croissants, trying new restaurants, or sampling wines, Foodies love all things related to food and beverages. From finding amazing ingredients to new cooking techniques, Foodies are all about gathering friends and family around an abundant table.

## CREATORS

Whether we're makers or aficionados, Creators actively support arts, music, and culture. From painting and writing to welding and carpentry, we combine our technical skill with extensive imagination.

**Choose your tribe or take a short quiz to figure out where you feel most at home.**

And you don't have to limit yourself to one tribe. You can take part in a cooking club with the Foodies and then take part in a game of pickleball with the Champs—it's all good.

All the tribes welcome everyone.
